Goshen Park, ~400 S. Center Street, Goshen

5.7 Mile Loop, 377 feet/loop

Course Description

The course is a 5.7 mile loop starting with a gentle climb that only gets steeper and steeper before a short drop then rollers to the mouth of Goshen Canyon. At the mouth of the canyon the course takes a right onto Triangle road where there are two punchy climbs before leveling off then a gradual down grade to Sandhill Road. Riders will turn right onto Sandhill Road. Once on Sandhill road there is a big drop, followed by a short kicker then another drop. This section has curves so stay in your lane and watch your speed on these big drops. As you come back into town, the course makes a hard right turn onto 350 South and you will need to drop your speed to make the turn safely. After this turn it is just a short, flat section to get back to Center St. and turn inside the cones for the finish sprint.

Aid Stations & Support

No aid stations or water hand-ups will be provided for this event. There *may* be water, soda, and/or food provided after the race if Covid restrictions allow.

Rules of the Road

- Finishing must be done on the inside of the cones for safety. If you finish on the outside you will be DQ'd.
- Helmets – No helmet, no race.
- This is an open course and will have some traffic although should be very minimal. Center Line Rule is in effect. Cross the yellow line and risk DQ. If no painted centerline marking is present riders must always keep to the right side of the road. Watch for the cones to keep riders on their side of the road and give a lane to traffic at corners and finish. Take care coming to tops of hills where visibility for oncoming traffic is reduced.
- Each rider will be given a bib number and it must be worn on the jersey above the pockets. Number placement instructions will be given at time of packet pick up or check-in.
- Do not cut, fold, or alter numbers. It will make it harder for the finish camera to read your number or it may miss you.
- Course will be open for warm-up laps until 15 mins before first start (~9:45am & 12:30pm) at which time no more riders may start a lap. Those on course will complete the lap then warm-up on a trainer or non-course roads, if desired.
- There are no allowances in number of laps or time for mechanicals.
- No littering – If you throw your trash anywhere but a trash can you risk a DQ.
- No public urination – Bathrooms are available at the start/finish line only. The circuit is less than 20 mins. There is no need to stop anywhere else, hold it.
- Depending on registration numbers, some fields may race together but will be scored/podium separately.
- Volunteers are there serving you. Tell them thanks. Berating a volunteer or aid station crew will risk a DQ.
- Personal support vehicles are not allowed on course.
- No wheel cars will be provided for this race.
- Time limit: With a circuit race you may do 1 less lap than your field or be pulled to keep all fields on schedule. For example, if last lap has been called for your field and you are more than 15 mins behind the field you will have your race ended without completing the last lap.
- Podium with prizes will be done as results are finalized.
- A sweep vehicle will drive the course after the event to clean any accidental trash from the riders and pick up any riders, if needed.
- Food may be provided post-race but is heavily dependent on health restrictions.
